## Wednesday Challenge Form

Group Members: Jaden, Rual

Problem Statement: We had to make a little toy  
For the 589 robotics team to have and keep  
As a souvenir sort of for that season.

Approach: Straight from the beginning we  
Had the idea of having a coin but as a shape  
Of a gear from the game. But then Raul had  
Another idea that was to have sort of a slapper  
Kind of thing, its kind of hard to explain

Solution: We did not win the challenge

Lessons Learned: The lesson we learned from  
This challenge was to use our creativity
